

I have given monthly donations to this station for a substantial period of time now because of the quality of programming and the uplifting nature in a time when our country needs this. All you have to do is turn on many radio stations in the Phoenix area and hear the crime and mayhem associated with a large metropolitan area. Any station that tries so hard to stop the chaos should not have roadblocks set in their way that would make it impossible to get on the air. Please make it possible for K-Love to continue to broadcast, this is not only important to the Phoenix area but to our beloved country who needs to believe in some good days ahead.
